

NRSG3416: Trends, Issues and BSN Transition

Credit Hours: 4

Clock Hours: 60/0/0

This course focuses on the professional roles and responsibilities inherent to patient care across multiple settings. Emphasis of learning is placed on the concepts of leadership, management, patient advocacy, and the delivery of quality healthcare. Standards of professional practice in relation to the nursing profession, role, and value behavior will be discussed as well as professional development across one's career.
